MEET THE PRODUCT

**ARBONNE ESSENTIALS® DIGESTION PLUS**

For Daily Health

Every day add a single serving stick pack of mild powder to any cold or room-temperature liquid. Delivers prebiotics, probiotics and enzymes to help support optimal digestive health. There are many factors that affect the balance of the gastrointestinal tract, and by supplementing the diet with probiotics and enzymes you’re making sure that you’re helping maintain the balance of “good” bacteria and also helping improve the body’s ability to digest food. Just one stick of Digestion Plus a day helps support better digestive health and wellness.

#2063; $50

**Talking Points**

- Add a stick of Digestion Plus to your Arbonne Essentials Protein Shake.
- Factors like antibiotics and poor nutrition can affect GI balance. Digestion Plus can help support that balance.
- Convenient on-the-go stick pack to share with others as a sample or to throw in your purse or bag.

**KEY INGREDIENTS**

**Prebiotics: Chicory fructooligosaccharides**

- Prebiotics are a soluble fiber that help create an ideal environment for probiotics (“good bacteria”) to colonize.
- Prebiotics help support a healthy gastrointestinal (GI) tract.

**Probiotics**

- Studies have shown the robust probiotic strain, bacillus coagulans, survives its trip to the GI tract.
- Bacillus coagulans is much less sensitive to environmental factors like heat and humidity.
- Probiotics help support microfloral balance in the GI tract.
- Probiotics are responsible for a number of important functions within the GI tract, such as production of vitamin K, supporting immune health, and helping maintain the balance of microflora.

**Enzymes**

- Enzymes are proteins that help break down dietary macronutrients so they can be used by the body.
- Enzymes in Digestion Plus help support the breakdown of carbs, fats, protein, fiber and lactose.
- Enzymes can help support a healthy digestive process.

**BENEFITS**

- Supports digestion of carbohydrates, fats, protein, fiber and lactose
- Supports healthy digestion to help minimize gas and bloating
- Promotes balance in the intestinal tract
- Supports nutrient uptake from the foods we eat

**FREQUENTLY ASKED QUESTIONS**

Q. Do I have to keep Digestion Plus refrigerated?

A. No, you do not have to refrigerate Digestion Plus. It’s formulated with a strain of probiotics that’s shelf stable in room temperatures. However, we recommend storing Digestion Plus at room temperature, as long-term heat exposure could be detrimental.

Q. Can I add a stick of Digestion Plus to my Essentials Protein Shakes or Herbal Detox Tea?

A. Yes and no. Feel free to add a GI balancing boost to your Arbonne Essentials Protein Shake by adding a stick pack of Digestion Plus to it. Do not add a stick pack of Digestion Plus to Herbal Detox Tea or any other hot beverages as the temperature can be detrimental to the probiotics in the formula. Please note that we recommend one stick pack of Digestion Plus per day.

Q. Do I have to take Digestion Plus every day?

A. We recommend using one stick pack of Digestion Plus per day. Supporting the microflora balance in the GI tract on a daily basis will help support optimal digestive health. Enzymes help break down dietary macronutrients from the foods that we eat so they can be better utilized by the body. By supplementing with enzymes daily, you are supporting daily health of your GI tract.
